ICON

The ICON model system contains components for atmosphere, ocean and land, which are used for a wide range of applications in research as well as in operational numerical weather prediction. The information given below aims at the main usage and model configurations at MPI-M.

Contents of this Namespace:

- A. Where to find the ICON codes
- B. Building the ICON executable
- C. Running the Model
- D. Code Development
- Developing code for ICON
- E. Pre-Processing
- Tips and Tricks
- Using Buildbot
