

ICON physics

This namespace provides information on selected parameterizations used in different model configurations:

Contents of this Namespace:

- [ICON-LEM parameterizations](#)
- [Stochastic shallow convection in ICON](#)
- [Turbulence schemes in ICON-LEM and ICON-AES](#)

Many parameterizations used in ICON-A are based on parameterizations used previously in the ECHAM model. Further information on them may be available in the respective documentation by Giorgetta et al. (2013): The atmospheric general circulation model ECHAM6 - Model description. Berichte zur Erdsystemforschung, 135. <http://dx.doi.org/10.17617/2.1810480>
